

# SCHEDULED CONFERENCES, VISITS, MEETINGS & EVENTS

## LOS ALAMOS NATIONAL LABORATORY PROTOCOL OFFICE

DATE	MEETING/LOCATION	PURPOSE	HOST/GROUP	PARTICIPANTS	PLANNERS
<b>2000</b>					
08/13-14 (V)	General John A. Gordon, Under Secretary for Nuclear Security and Administration, National Nuclear Security Administration	Laboratory tours and talk to employees.	J. Browne, DIR		CC/ LK
08/13-19 (C)	24 <sup>th</sup> Actinide Separations Conference (Alexis Park Hotel, Las Vegas, NV)	To provide a forum in which U.S. scientists and engineers can meet annually to present and discuss problems, experiences, results in progress, and other matters of interest concerning development, testing, and application of actinide and fission product separations chemistry and engineering.	L. Schulte, NMT-2	200	LH/ MH
08/14-15 (V)	Jay Jakub, Professional Staffer, U. S. House Permanent Select Committee on Intelligence	Security briefings.	K. Braithwaite, GRO		KS/VP
08/14-15 (V) ♦	John Todd, Director, Defense Nuclear Security, NNSA	Lab orientation & tours.	S. Busboom, S-DO		MM/CC LK
08/14-16 (M)	UC President's Council on the National Laboratories, ES&H Review Panel (LANL)	Annual meeting.	D. Erickson, ESH-DO		DW/ LK
08/17 (V) ♦	Cathy Eberwein, Deputy Director for Office of Counterintelligence	Lab orientation.	K. Schiffer, ISEC		KL/ LK
08/23-24 (V)	Picatinny Arsenal (Army)	To address technologies to support Army research and engineering.	D. Morgeson, TSA-DO		DW/ VP
08/28-29 (M) ♦	Industrial Overview Committee	Tours of the Superconductor Center.	D. Peterson, MST-STC		LH/ MH
08/29-30 (V)	NM Directed Energy Alliance Committee	Meeting of the New Mexico Directed Energy Alliance Committee.	D. Cobb, ALDTR		CW/ VP
08/31 (M) ♦	Russian Fissile Material Storage Facility Program Review	Program review.	F. J. Martin, TSA-10		KL/ LK
09/11-15 (W)	Nuclear Nonproliferation Workshop	Follow-on to Washington seminar on nuclear nonproliferation.	C. Cuntz, NIS-8		MM/ VP
09/13 (M)	ALDTR All-Employee Meeting on Threat Reduction Science & Technology Showcase	All-employee meeting.	D. Cobb, ALDTR	150	KL/ LK

DATE	MEETING/LOCATION	PURPOSE	HOST/GROUP	PARTICIPANTS	PLANNERS
09/18-23 (M)	R. Michael Westfalt, Oakridge; Kevin Hopper, Oakridge, Dickson Callahan, Ret. Oakridge; Joseph Thomas, Ret. Oakridge	Videotaping historical discussions on criticality safety.	T. McLaughlin, ESH-6		DW/ VP
09/25-26 (M)	UC President's Council (LANL)	Annual meeting.	J. Browne, DIR A. Hartford, STB		PV/ VP
09/26-27 (V)	John Rae, Director AWE, Aldermaston	Laboratory orientation.	S. Younger, ALDNW		CC/ LK
10/03-04 (M)	UC President's Council, Project Management Panel	A meeting of the UCOP Project Management Advisory Panel to review the progress and status of project management of the 3 University of California Laboratory's.	J. Browne, DIR W. Kirchner, PMD		PV/ VP
10/17-18 (W)	Fire Information Officers Workshop	Fire officers workshop.	D. Burick, DIR	60	PV/ VP
<b>2001</b>					
01/09-11 (M)	Nonproliferation and International Security Division Review Committee	Provide the Laboratory Director and the Laboratory Leadership assessments of the quality of NIS Division programs and activities.	T. Hawkins, NIS		MM/ VP
05/06-10 (M)	2001 Nuclear Supplier Group Plenary Meeting (Aspen, CO)	Plenary meeting for NSG.	B. Canavan, NIS-8		KL/ VP
06/03-07 (C)	Anomalous Absorption Conference (Sedona, AZ)	This conference deals with interactions of high intensity electromagnetics with plasma.	J. Fernandez, P-24	200	LH/ MH
07/17-24 (C)	International Conference on Physics of Electronic & Atomic Collision (ICPEAC) (Sweeney Ctr., Santa Fe)	The ICPEAC conferences are a series of biennial meetings promoting the growth and exchange of scientific information on the physics of electronic and atomic collisions and related areas of atomic and molecular physics that the governing bodies of the conference shall select from time to time.	S. Datz, ORNL J. Cohen, T-4	800	LH/ MH
10/19-26 (C)	LANL Physical Phenomenon in High Magnetic Fields-IV	To bring together experts to critically discuss recent advances in areas of science and applications in which high magnetic fields play an important role.	A. Lacerda, MST-NHMFL	300	LH/ MH
